JUN 16 2003

Dear Interested Party:

The Colorado River Storage Project Management Center of Western Area Power Administration (Western) is interested in obtaining information about potential sources and prices of non-hydro renewable electric power to serve Federal installations located in New Mexico. We anticipate that any eventual power purchases would be for a 5 or possibly 10-year period. Details of Western and the customer's requirements are included in the enclosed Request for Information (RFI).

If you are interested in potentially providing all or a portion of this power, please submit a response that includes the information requested in the RFI. Your response should be received no later than September 12, 2003, at the following address:

Western Area Power Administration
CRSP Management Center, ATTN: L6440
P.O. Box 11606
Salt Lake City, UT 84147-0606

For questions related to this solicitation, please telephone Sam Loftin at (801) 524-6381.

Sincerely,

David Beannion
for Bradley S. Warren
CRSP Manager
